

Unlocking the Mystery of Autism!

Calming the Storm

Pediatric Associates
OF DALLAS
— EST. 1971 —

Now Offering Clinical Trials for Pediatric Autism Spectrum Disorder.

This study will help determine how safe the investigational medicine is and whether it can reduce irritability associated with autism spectrum disorder (ASD).

Those that qualify may:

- ▶ See a medical professional at no cost, no insurance required.
- ▶ Have access to study medication.

Additional criteria may apply

Participants may receive compensation for time and travel.
